Dear Sir/Madam,

This is to inform you that Punjab State Council is bringing out a monthly science magazine 'Nirantar Soach' in Punjabi since 1996 with the objective of popularizing science and making general public awareness about environmental problems which need their attention. The magazine also provides in-depth information about human health and management of agriculture-related problems. It translates the difficult scientific notions into placid statements which could be easily followed and understood by those who are without formal training in science.
